

WP1: Management Update

Keith Cann-Guthauser

Astronomisches Institut, Universität Bern

EGSIEM Assembly

19-20. January 2017, Bern

WP1: Management Overview

- Reporting
- Payments
- Data Management Plan

WP1: Management Reporting

Our first financial reporting period was between **1.1.2015 – 31.12.2015** and we submitted the first periodic report on 28th February 2016 (so, within the 60 days deadline).

WP1: Management Reporting

In year 2 (01.01. – 31.12.2016) we provided a Progress Report

No financials details were necessary* other than where there was a significant divergence from the budget.

The report template was identical to that which was completed for the first periodic report.

The report provides an overview of what has happened in each WP since the end of 2015

* UBERN will need to complete their own finances to their local funder.

WP1: Management

Reporting

- The WP Leaders coordinated each relevant section
- All other areas written by UBERN (with significant input from you all)
- During 2016 all WPs were active
- Progress Report can be downloaded from SyGMa (EU Participant Portal)* or from egsiem.eu
- Our next report will be due in Feb 2018 (Second Periodic Report)

* Is it?

WP1: Management Reporting/Deliverables

Deliverables

For each Deliverable, a single file (max 52MB) can be uploaded

Validate

Publications are being updated within the participant portal, however, the consortium needs to know at least 45 days in advance of any **planned** publication.

EGSIEM Consortium Agreement, Section 8.3.1.1

WP1: Management Payments

Lots of Deliverables and a report!

WP1: Management

Payments

The payments from EGSiem have been/will be sent as follows;

- January 2015 - Pre-Financing, paid out in 2 x instalments; the first 70% of this figure was sent in early March 2015
- Feb/March 2016 - Pre-Financing (2), the remainder (30%) of the above was sent to everyone on 18.03.2016

EGSIEM Consortium Agreement, Section 7.3.2

- Mid 2016 - Interim Payment based on the expenditure reported in the first periodic report (uploaded in the EC's Participant Portal in Feb 2016)

Payment was made on **18.07.2016** – apologies for the delay!

- **Mid 2018 - Final Payment expected, remaining budget (including the 5% guarantee fund that the EU held back from the Pre-Financing), this figure is based on the total expenditure reported**

WP1: Management

Data Management Plan

- It was recommended at the Mid-Term Review (Brussels, March 2016) that the question of the release of datasets and solutions should be looked into.
- This was briefly discussed at the last project meeting (Potsdam, June 2016 – Action Item 021)

WP1: Management

Data Management Plan

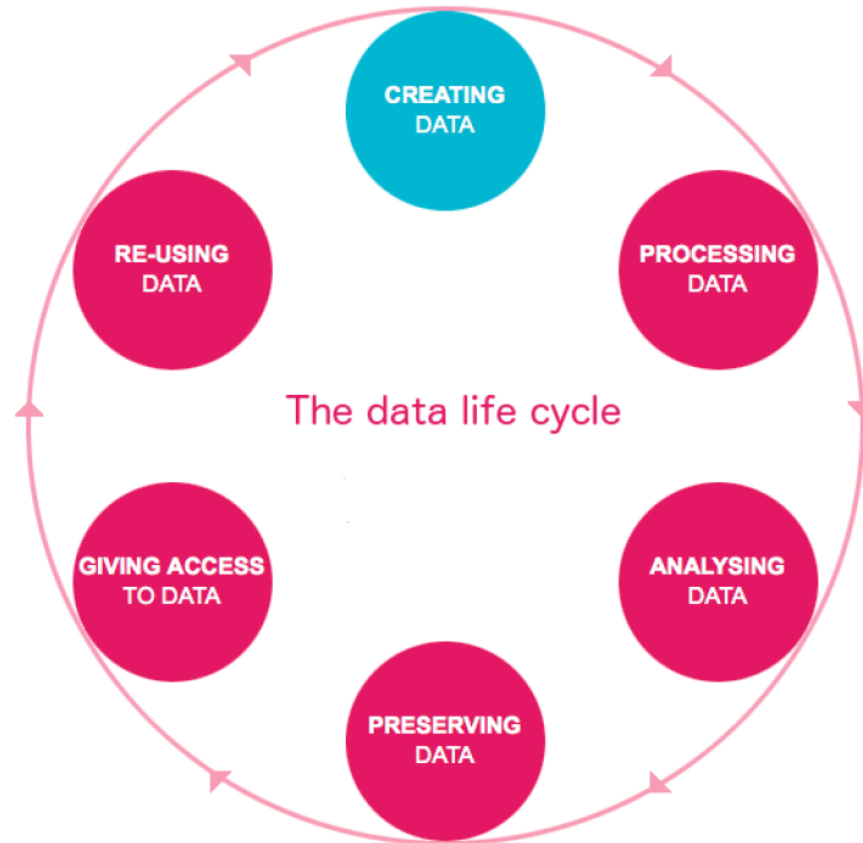

Figure 1 - Data lifecycle according to UK Data Archives (www.data-archive.ac.uk/create-manage/life-cycle)

WP1: Management

Data Management Plan

A DMP should include information on:

- the handling of research data during and after the end of the project
- what data will be collected, processed and/or generated
- which methodology and standards will be applied
- whether data will be shared/made open access and
- how data will be curated and preserved (including after the end of the project)

A DMP is required for all projects participating in the extended ORD pilot, unless they opt out of the ORD pilot. **However, projects that opt out are still encouraged to submit a DMP on a voluntary basis.**

http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/oa_pilot/h2020-hi-oa-data-mgt_en.pdf

WP1: Management Data Management Plan

The utilisation of data was already foreseen in the original application (*Management of research data*, p. 31).
What the DMP is designed to provide is a structured way of dealing with this data now, and in the future.

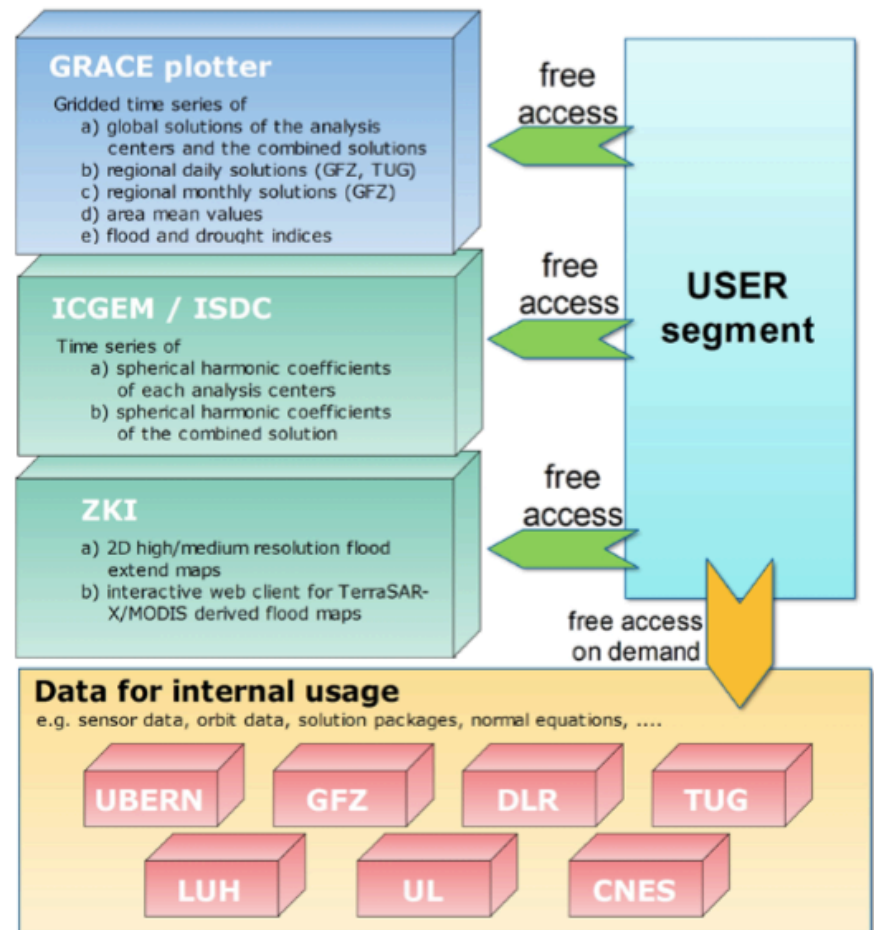

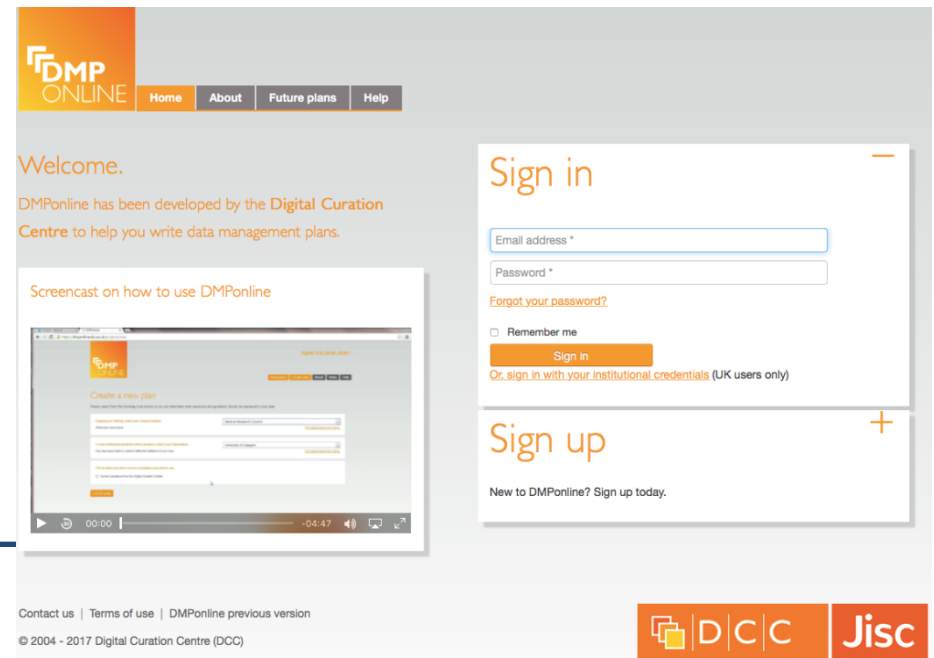

Figure 2.2-5 from the EGSIEM DoA

WP1: Management

Data Management Plan

- As a first step I have registered EGSIEM with the DMP online tool, developed by the UK-based Digital Curation Centre which includes a H2020 template
- I can add users to the EGSIEM account (such as G&C)

The screenshot displays the DMPonline website interface. At the top left, the logo 'DMP ONLINE' is visible, with navigation links for 'Home', 'About', 'Future plans', and 'Help'. The main content area features a 'Welcome' message, a description of the tool's purpose, and a video player titled 'Screencast on how to use DMPonline'. On the right side, there is a 'Sign in' section with input fields for 'Email address *' and 'Password *', a 'Remember me' checkbox, and a 'Sign in' button. Below this is a 'Sign up' section with a '+' icon and the text 'New to DMPonline? Sign up today.' The footer contains contact information, terms of use, and copyright details for the Digital Curation Centre (DCC) and Jisc.

WP1: Management

Data Management Plan

- But... what are we putting in here?
- The DoA states that L3 products will be *accessible* via the EGSiEM Plotter and that L2 products will continue to be made available via ICGEM etc
- Stéphane has already assisted with answers to some of the more technical questions but he is not responsible for the source data

WP1: Management

Data Management Plan

The questions for me are:

- At what level do we need to present a DMP for EGSIEM (Plotter/individual ACs)?
- Would standardisation of metadata and formats be possible across the consortium?
- Can we agree a licensing structure (eg [Creative Commons Attribution-NonCommercial 4.0 International Public License](#)) across all partners?
- Can we guarantee that we are free to release this data (do we need to acknowledge anyone else)?

WP1: Management

Data Management Plan

[Attribution-NonCommercial 4.0 International \(CC BY-NC 4.0\)](#)

You are free to:

Share — copy and redistribute the material in any medium or format

Adapt — remix, transform, and build upon the material

The licensor cannot revoke these freedoms as long as you follow the license terms.

Under the following terms:

Attribution — You must give **appropriate credit**, provide a link to the license, and **indicate if changes were made**. You may do so in any reasonable manner, but not in any way that suggests the licensor endorses you or your use.

NonCommercial — You may not use the material for **commercial purposes**.

No additional restrictions — You may not apply legal terms or **technological measures** that legally restrict others from doing anything the license permits.
